

# THE PORTSMOUTH HERALD

VOL. XXX., NO. 292.

PORTSMOUTH, N. H., TUESDAY, SEPTEMBER 14, 1915.

Portsmouth Daily Republican Merged  
with THE HERALD July 1, 1902.

PRICE TWO CENTS.

## TWO PERSONS KILLED IN AUTO CRASH

**Machines Meet in Head On Collision on  
East Chester Road Early Today**

(Special to The Herald)  
New York, Sept. 14.—A man and woman were killed and five other persons were injured when two automobiles traveling at terrific speed crashed head on in East Chester road early today. The dead are Ida Brown, an actress, and Walter Delmar. Both were crushed to death. The cars were traveling forty miles an hour when they collided.

head on in East Chester road early today. The dead are Ida Brown, an actress, and Walter Delmar. Both were crushed to death. The cars were traveling forty miles an hour when they collided.

## SUBMARINE SUNK IN THE MEDITERRANEAN.

**German Undersea Craft Victim of a French Torpedo Boat Patrol.**

(Special to The Herald)  
Athens, Sept. 14.—A French torpedo boat patrol has sunk a German submarine in the Mediterranean between Mytilene and Tenedos. It is stated in a wireless message received today.

## CHINAMAN FAILS AT SUICIDE

**Attempts to Take Life in Jail.**

(Special to The Herald)  
Springfield, Sept. 14.—Lang Young, the self confessed murderer of two of his Chinese fellow countrymen, mutilated himself in Hampden county jail in an attempt at suicide last night. He performed the mutilation with a long razorlike thumb nail. After the discovery of his plight by the trusty on guard and the night officer of the jail the prisoner was rushed to the Springfield hospital where an operation was performed. He will recover. He told the jail officials and surgeon that he did not regret his act. His case comes before the county grand jury today, which is expected to return an indictment for the double killing in this city.

**\$5500 IN BENEFITS**  
The beneficiary order, Knights of Honor, which went into the hands of a receiver in St. Louis on Friday last, had a membership in New Hampshire on December 31, 1914, of 123, a loss of seven during the year. During the year New Hampshire members received \$5500 in benefits and paid out \$11,000.

## SITUATION ON MEXICAN BORDER IS SERIOUS

**Reported That Carranza's Army at Matamoros Intends to Attack Brownsville on Sept. 16, Mexico's National Independence Day**

(Special to The Herald)  
Brownsville, Sept. 14.—Every hour that passed increased the seriousness of the situation on the Mexican-American border today. These were the chief developments of the early forenoon: One battery of American cannon was placed on the Mexican town of Matamoros on the border. The bodies of two Mexicans were found near Santa Marie where Mexicans and American troops engaged in a battle on Monday. Three armed Mexicans invaded the Lacombe ranch twenty miles west of Brownsville and owned by B. S. Pelford, an American. They stole several horses, saddles and large quantities of provisions. The order to train the cannon upon Matamoros was given by the United States military authorities, and was immediately obeyed. The guns being made ready for instant action. No explanation was given for this act by the authorities, but it was believed to be a precautionary measure taken in view of the many rumors afloat that the Carranza army at Matamoros intends to attack Brownsville on Sept. 16, Mexico's national independence day. In addition

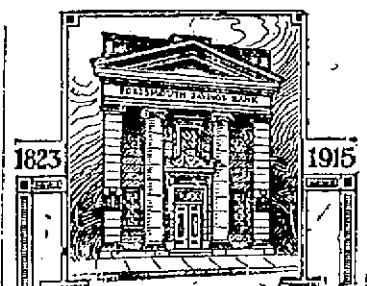

to the battery of guns trained on Matamoros a line of trenches three miles long is being built by the American soldiers on the Rio Grande facing the Mexican city. Every able-bodied American in this district has been sworn in as a special police officer.

## CAPTURE OF RIGA SOON

**Not Expected to Hold Out Against Germans Much Longer.**

(Special to The Herald)  
Berlin, Sept. 14.—Official announcement of the capture of Riga by German troops is expected shortly. A report that the Russian port has been taken was in circulation here today but this was believed to be premature. German artillery has driven the defending Slavs from the east bank of the river, thus permitting the construction of pontoon bridges to replace those which the Russians destroyed on their retreat from the west bank.

**NOTICE**  
Alpha Council, No. 83, Royal Arcanum will be visited by Grand Regent, H. E. Walte, and Grand Secretary J. H. Adams, on Wednesday evening, Sept. 15. Every member is requested to attend this meeting. Refreshments will be served.  
P. T. HARTSON, Secretary.

## THE BEST INVESTMENT

There are so many ways of investing money that unless you exercise great care you are likely to become a victim of one of the innumerable pitfalls of speculation.  
The best investment is a Savings Account in this strong, safe bank, which pays regular semi-annual dividends on deposits and furnishes unquestioned safety for funds.

SAVINGS BANK**  
THE OLDEST AND LARGEST  
BANK IN PORTSMOUTH

## PARLIAMENT IS NOW IN SESSION

**Questions Vital to the Life of the British Empire Must Be Settled Before It Closes**

(Special to The Herald)  
London, Sept. 14.—England's most momentous session of parliament in history opened today. Questions vital to the life of the empire must be settled before it closes. Chief among them are the following: adoption of a budget and the promulgation of new taxes, and other agencies to increase the revenues, for England must bear a big part of the financial burden of her allies as well as her own; adoption of a definite program as regards pensions for the families of soldiers; adoption of measures to increase the army. A hard fight will be made for the conscription and although compulsory service is opposed by such powerful members of the government as Premier Asquith and Sir Edward Grey, the acceptance of conscription as a national necessity would not surprise the nation.  
Certain members may attempt to precipitate the crisis. It is known that

Mr. Asquith has no intention of relinquishing his present distinguished office—at all events without a struggle—and it is equally certain that, if and when the vacancy does occur, Mr. Lloyd George is determined to be England's next dictator.  
Mr. Asquith has himself rather to thank for his present position. He has with many persons a reputation for dilatoriness and procrastination. Mr. Lloyd George is a fighter first and last and all the time. Many people think that England wants a Cromwell to direct her destinies at the admittedly most critical period of her history, and they believe they will find the protector in the new minister of munitions.  
But Mr. Asquith lies low and says nothing. The members of the Cabinet know by experience that when he puts his foot down his will is law, and that

# GERMAN AVIATOR DECORATED

Berlin, Sept. 14.—The general staff reports that Sergeant Wilhelm Sonntag of the German aviation corps has been decorated with the iron cross of the first class. While flying over Calais the sergeant was attacked by three French aeroplanes which pursued him to the German lines. Suddenly he turned to give battle and, after an exciting combat he forced two of the French machines to land. The next day he destroyed two English biplanes south of Ypres. The sergeant measures 6 feet 9 3/4 inches in his stockings.

# KITTERY

## Breezy Items from the Village Across the River.

An Epworth League business meeting will be held following the prayer meeting at the Second Methodist church this evening.

There is a marked improvement shown in the condition of Miss Amelia Meyers.

Minchall Walter England attached to the U. S. S. Leonidas has arrived home for a stay in town.

Instead of the regular meeting of the Ladies Circle this week the ladies will go to the vestry on Thursday afternoon and assist with the supper to be given under the auspices of the Christian Endeavor Society.

The "Barn a Dollie" social which was to have been held under the auspices of the Epworth League on Wednesday evening, Sept. 15, has been postponed until September 22.

Mr. and Mrs. G. Lucile Langton of New Jersey are visiting the former's mother, Mrs. Laura Langton of Butler's Crossing.

Visit our store for toys, novelties, etc. New goods daily. Walker's Variety Store.

The Misses Margaret and Frances Hatchell have returned to their home in Portsmouth after passing the summer at their cottage on Dodge's Island.

The regular week night prayer meeting will be held at both of the local churches this evening.

There will be no meeting of Boy Scouts this evening.

Karl Chick substituted today an assistant baggage master at Kittery Junction for Norman Chick.

Miss Emily Shaw of Central street is enjoying a week's vacation from her duties at the G. B. French store, Portsmouth.

Mr. and Mrs. G. M. Shoppe have returned to their home in New York after a week's visit with their daughter, Mrs. William Wain of Walker street.

Mrs. J. Wilson Hobbs will entertain the Phoenix Sewing Bee at her home on Wentworth street on Wednesday afternoon. All members are requested to attend.

Hoyt, the two year old son of Senator and Mrs. Aaron B. Cole of Government street was painfully injured while playing in the yard of his home on Monday. The little fellow fell on a brick causing a bad cut on the jaw. Dr. Shapleigh was called and dressed the wound.

A business meeting of the Christian Endeavor Society was held at the parsonage on Monday evening and the plans for the harvest supper to be given on Thursday evening completed.

A telephone has been installed in the residence of Charles Meyers on Government street.

George Cheney has moved his household effects from Pine street to the home on Love Lane recently purchased by him from Chief Postmaster Frederick Muller.

Edward Gillespie is enjoying a vacation from his duties at Bickford's Market and together with Mrs. Gillespie is passing it in Boston.

Mrs. Carroll Burnham of Woodlawn avenue is entertaining her sister, Mrs. Frank Angeline of Middleborough, N. S.

Mrs. Austin Gough of Pierson street has accepted a position as grocery clerk at Prince's Market.

Ralph Flynn and family who have been passing the summer at their cottage on Dodge's Island have returned to their home in Portsmouth.

People who have itched and scratched for years find sleep and rest soon after Cadum Ointment is applied. It is good for eczema, pimples, blotches, ulcers, eruptions, scaly skin, chafings, rash, etc.

It is really surprising how quickly Cadum Ointment relieves the torture and itching of skin troubles. It begins to heal an inflamed, irritated or diseased skin with the first application, and has proved a blessing to many who have suffered for years with distressing skin affections. 10c and 25c a box. Sold by all druggists.

Charles Meyers of Government street is enjoying a vacation from his duties as watchman on the navy yard.

Mr. and Mrs. Herbert O. Farrington of Echo street are receiving congratulations upon the birth of a daughter.

Mrs. Malcolm Brainard and infant son have returned from the Portsmouth hospital.

The following are the new pupils who have entered the first grade this term:

Dennett school—Doris Newson, Robert Williams, Daniel Landers, and Donald Bilbrack.

Austin school—Pauline Locke and Calvin Segee.

Wentworth school—John Stanley, John Green, William Rossiter, Edna French, Charles Seawards, Truesell Wurn, Mabel Walsh, Irene Walsh, Marshall Bowker, Alfred Packard, George McDonald, Rodney Mife, Harold Farrington, Geraldine Morrow, Dorothy Able, Mamie Hurley, Annie Parsons, Phyllis and Martha Wilson.

**NEWINGTON**

The schools reopened on Monday. Miss Ransom is still teacher of the grammar grade and Miss Frink of the primary grade. Several new pupils entered each of the rooms.

A new school flag has been purchased and is now floating on the breeze.

Several of our people had the honor of receiving some of the prizes given at the fair.

Mrs. David Frink and son Harold have returned from a brief visit to her former home in Mattapoisett, Mass.

The Misses Susie and Marion Hoyt who have been visiting relatives in town have returned home.

Miss Martha Hoyt is passing a short time in town.

Miss Eunice Ransom, one of the teachers in our schools returned to town on Friday.

Mrs. Richardson of Massachusetts passed the week-end with her sister, Mrs. A. Downie.

Miss Anna Frink, cashier in the G. B. French store is enjoying her annual vacation. She is passing this week in North Woodstock, N. H.

Harold Staples who has passed the summer in town, has now returned home to resume his studies at Elliot high.

The sweet corn which is used at the canning factory at Epping is a light crop this year.

Miss Ruth Harden who has been passing some weeks here with relatives, has now returned to her home in Everett. The church people will miss her voice on Sunday, for since being here she has rendered a solo at the morning service.

## 'CAV' IS PLEASED WITH SHOWING OF GREEN TEAM SO FAR

Over a week has passed since the call for football candidates for the Portsmouth College eleven was issued. The men responded to the call issued by Coach Cavanaugh very surprisingly; in fact, better than they have since the college started its early training camps.

During the past week 50 men practiced each day, and in the evening listened to a blackboard talk by Coach Cavanaugh.

The great response to the call for football candidates is probably due to the large number of letter men who graduated in June. Thirteen D men, mostly from the wing and backfield positions, finished their football careers in the Syracuse game in Fenway Park, Boston.

The problem of constructing almost an entirely new team this year is probably the reason for the early practice and in such hot weather.

Freshmen Being Given Best Chance Ever.

Because of the loss of so many men of last year's eleven, freshmen of last year have a perfect right to believe that their prospects are good this year. Coach Cavanaugh is giving them considerable drilling at quarter, in hopes that he will discover one who will run the team in uptown fashion.

Ends and half-backs are also scarce this season, but Coach Cavanaugh believes that in some of the boys he is now working at quarter-back he can make half-backs or ends of them.

No time will be lost, however, and this week will be a hard one. Practice will start full blast today and it is likely that several line-ups will be organized and ordered to run through signals.

## EITHER MAKES GOOD PIES

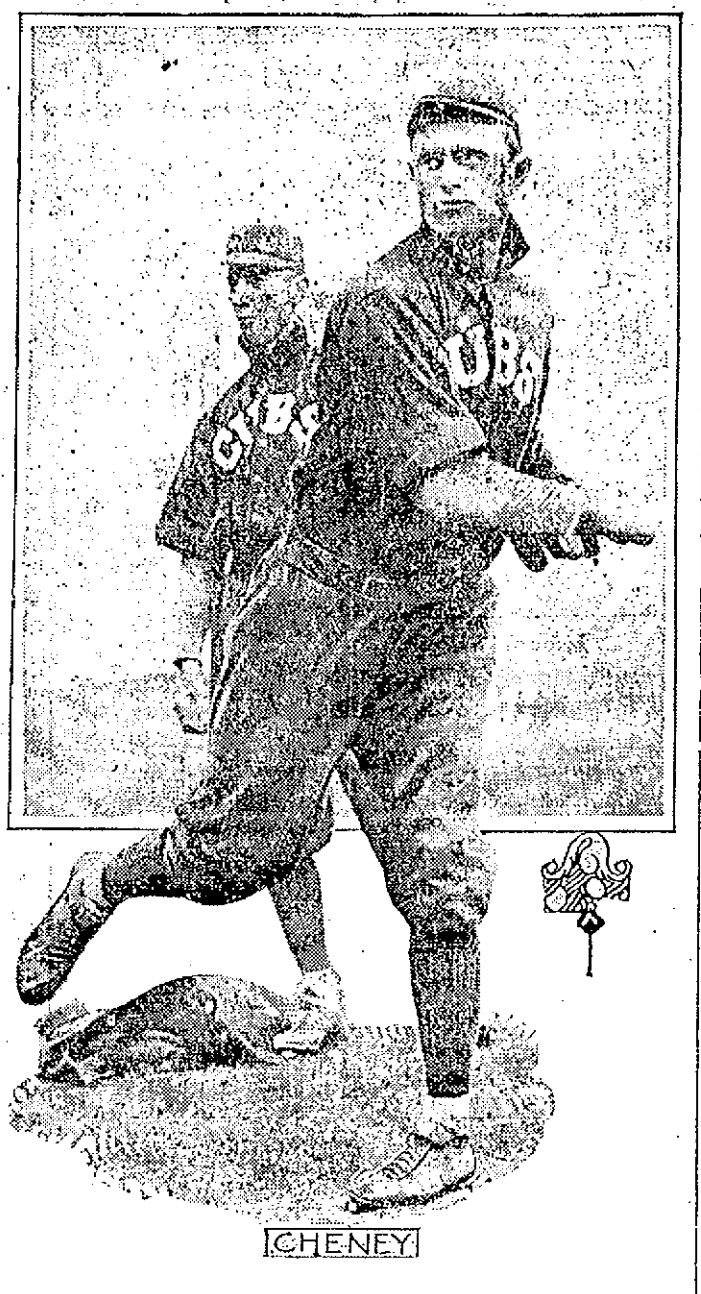

"Dear Observant Citizen—A strange little thing happened in Newport Centre, Vt., and I should like to have it explained. A farmer by the name of Ed Tate purchased from the village grocer a package of squash seeds a year ago last spring; he planted them and some very fine pumpkin grew. This wife, thinking the seeds were put into the package by mistake, saved some of the seeds, as the pumpkins were so good. Mr. Tate planted some of the pumpkin seeds this spring. Now, the strange part of it is that this fall, some extra fine squash are growing. Can it be explained?"

—Boston Post.

Sure it can be explained. Vermont is a "dry" state a long way from Portsmouth and the barbed wire brand of "skull" will make fonder things than "Great squash from little pumpkins grow" offerer than once a year.

Don't use harsh physics. The reaction weakens the bowels, leads to chronic constipation. Get Dan's Reguloids. They operate easily, 25c at all stores.

# ROBINSON BOLSTERS PITCHING STAFF FOR DASH DOWN STRETCH.

Brooklyn, N. Y. Sept. 14.—Wilbert Robinson, the genial manager of the Brooklyn National League team, is not taking any chances of his squad cracking under the strain. To guard against this eventuality he has added Larry Cheney and Rube Marquard to his hurling corps. Cheney was for several years the star of the Chicago National league club, and he was traded mainly because Roger Bresnahan needed a good infielder. The Brooklyn club paid \$3000 and turned over Joe Seitz to the Cubs for the release of Cheney. Larry, though he has not shown anything like his true form this season should take a brace in his new surroundings, and if he does he will help the "Superbas" cruise materially. Rube Marquard was loaned from the Giants for \$2,500 after all the major league clubs including Brooklyn had waived on him. It was because the club consented to a reduction in the salary he was getting from the Giants that he was added to the staff of the Brooklyn club. Wilbert Robinson has been given much credit for the development of Rube Marquard, and if the rotund pilot of the Superbas still possesses the old influence over the southpaw, he should take on a new lease of life. With Cheney and Marquard displaying anything like their old form and the other members of the club retaining their early season form, the chances of the Superbas capturing the old flag look very bright indeed. Picture shows Larry Cheney in action.

# WITH THE SPORTS

George Whitted may give Josh Devore a battle for the title of "The Luckiest Man in Baseball."

Whitted was with the Cardinals up to the middle of the 1914 season. And then he was traded to the Braves. Was George glad? George was not. He was gosh darned mad, that's what he was.

At the time the deal was put through the Cards seemed to have a nice chance for the pennant—and the consequent share in the world series spoils.

The Braves just then were trying to push the bottom out of the National League. Well, George went to the Braves because he was forced to go—and the Braves won the pennant and the world series. Whitted got something like \$2500 as his share of the spoils.

In the springtime of this year the Braves traded Whitted to the Phillies—and gosh, how George did howl! He didn't want to quit a club that looked like a repeated in the world series business to play with a joke outfit such as the Phillies. But in the end George went.

And now there's a beautiful chance for George as a member of those same "Joke Phillies" to share in the earnings of another world series team.

# LOOKING FOR THIRD GAME

Helme Cragen, manager of the Portsmouth All Stars, is after the third and deciding game between his batting team and the boys from Salmon Falls. Helme wants the game played here in Portsmouth and the Salmon Falls team want it played on their home grounds.

The game here Saturday was one of the best the local diamond has seen this season. In Portsmouth the teams have a good field on which to play the game, and they haven't in Salmon Falls, and they can't pull 300 in Salmon Falls, or at least they didn't at their last game. At any rate, we want to see the game as it should be as good as that of last week.

Helme will probably know this afternoon if the Salmon Falls team will come here this Saturday for the deciding game.

# JEW HANGED BY RUSSIANS

Berlin, Sept. 14.—The "Dziennik Narodowy," a Polish paper published in Piotrkow, says:

"In Zarnow in the province of Radom the Russian committed fearful atrocities before they were driven out by the Germans. By order of Col. Laseczewski, the commander of the third Cossack regiment, gallows were erected at the little Jewish grave yard of the town and here a couple of innocent victims were hung every day. The highest pretext was sufficient for the execution of a Jew or a Jewess."

Col. Laseczewski tried all cruel personally. In his office he had a small model of a gallows and in the wall the arrested Poles and Jews were brought before him he always thundered: "You miserable dog. If you do not tell the truth I will have you hung and buried in the coffin you see here!"

For any pain, burn, scald or bruise, apply Dr. Thomas' Electric Oil the household remedy. Two sizes, 25c and 50c at all drug stores.

# KITTERY POINT

## Items of Interest from the Harbor Town.

Miss Ethel Bayless of Stony Brook, L. I., is the guest of Postmaster and Mrs. Edgar M. Frisbee.

Mrs. Eunice Sawyer has gone to Lebanon where she has taken a position as a teacher.

John Brooks of North Berwick is visiting relatives in town.

Miss Susie Seawards left Monday for Durham, N. H., where she will enroll as a student at the New Hampshire State College.

Miss Katherine Tobey has returned home after visiting relatives in Randolph, Mass., for several weeks.

The Ladies Aid Society of the Free Baptist church will meet with Mrs. Frank Getchell on Wednesday.

Barbara, the little daughter of Mr. and Mrs. Elroy S. Moulton who has been seriously ill for several weeks is slowly improving.

Mrs. M. Carrie Payne, daughter Miss Edith, and grandson, William Billings, have returned to their home in Portsmouth after passing the summer at their cottage here.

Mr. and Mrs. Charles Plained of Portsmouth have been visiting the former's father, Henry Plained for the past week.

William Mugridge is visiting his daughter, Mrs. John Glawson.

Mrs. Frank Nye and little daughter Virginia of Randolph, Mass., are visiting her sister, Mrs. Ernest Tobey.

Roy C. Philbrick has concluded his duties as conductor on the A. S. R. R.

The following are the new pupils in the first grade at the Mitchell school: Teddy Waldron, Helen Sawyer, Geraldine Fletcher, Mildred Rockwell, Corn Libby, Richard Seaward, Charles Anderson, Raymond Colby, Verne Rockwell, Clifton Trefethen, Leslie Billings, Ellen Frisbee, Anna Frances Perry Clark, Niles Pinkham.

Mrs. Ida Colby is visiting relatives in Malden, Mass.

Miss Eleanor Lambert has concluded her duties at the Hotel Algonquin, York Beach, and has returned to her home in town.

Mr. and Mrs. Fred Burns of Dorchester, Mass., are passing the month of September at Ash Knoll Farm.

Dr. Andrew D. White, former ambassador to Russia returned to his home in Ithaca, N. Y., Monday after passing the summer at the Hotel Champernowne.

# SUBMARINES TO GO UNPUNISHED

## Bernstorff Says No Blame Can be Attached to U-Boat Commanders.

Washington, Sept. 13.—After looking dark for a while the German-American skies cleared a little today.

Secretary Lansing and Ambassador Bernstorff talked matters over and later it was learned that they reached what was described as an "amicable understanding."

There was good reason for believing that this "understanding" embodied an American acceptance of the German proposition to arbitrate the Arabic case. That is, the point to be settled was whether the commander of the U-boat, which sank the liner, was warranted in believing the latter was trying to run him. It was understood also that assuming an arbitral decision against the submarine officer, Germany would, without further argument, admit her liability for financial damages on account of the two American lives lost in the affair.

This left still at issue the question of future mistakes of the kind.

This was a very critical point, Germany's latest position was, as it was known on high authority, Bernstorff told Lansing that German submarine commanders were not to be blamed for taking no risks, in view of the British neutrality order to merchant captains to ram U-boats whenever possible. The Kaiser, it was made clear, would give them the benefit of all doubts, in cases where they believed themselves in danger.

For this reason, it was pointed out, "mistakes" like the one which caused the Arabic's destruction, were bound to continue.

The only alternative, according to the German view, was for the British to revoke their "ramming" order. It was suggested that if the United States wished to prove herself really neutral, she would take this matter up with Great Britain.

**The German Position**  
Summarized, the German position is this: Liners will not be sunk unwarned by U-boats unless, in the opinion of the latter's commander, they seek to resist or escape.

In "special cases" like the Arabic, regret will be expressed and indemnity will be fixed by arbitration. Germany will not admit liability for indemnity without arbitration.

Germany will undertake to guarantee against unwarned submarine attacks only on condition that Great Britain disavows orders to liners' commanders to ram U-boats on all occasions.

If the United States wishes to convince Germany of the former's genuine neutrality she will seek to secure such a disavowal from the British.

**Means "Full Regrets."**  
It will be stated that by "full satis-

faction" for such incidents as that of the Arabic, Germany means only "full regrets."

Arbitration, it will be pointed out, will be absolutely necessary as Germany views the matter, to settle controversies over the loss of American lives in disasters like the Arabic's inasmuch as the Kaiser positively will not recognize Americans' rights to traverse the war zone in belligerent ships.

There was the best ground for belief that Ambassador Bernstorff had been definitely "turned down" by his government on the "full satisfaction" issue. Capt. von Papen, military attaché to the German embassy will be sent home if the department wishes, it was ascertained, without further discussion, on the sole condition that he be given a safe conduct.

**To Jail Archibald When He Arrives.**

Washington, Sept. 13.—It became known today that Correspondent Archibald will be put in jail by the United States government on his arrival in the United States.

## DUMBA PREPARING TO LEAVE COUNTRY

Lenox, Sept. 13.—The ambassador of Austria-Hungary, Dr. Constantin Theodor Dumba, whose recall was requested by President Wilson, was preparing today to leave his summer home here within a short time. He has engaged a furniture picker of Pittsfield to prepare his personal effects for shipment and has also notified his chauffeur that he would not require his services after the end of the week.

It was said at the office of the embassy staff that no formal statement on Dr. Dumba's recall was ready for publication. It was understood, this would be withheld until official advice had been received from the Austrian foreign office at Vienna.

## HERO SAVES TEN COMRADES.

Paris, Sept. 11.—A stretcher bearer, Jean A., has just received the cross de guerre for his heroism in saving the lives of ten of his comrades under a heavy fire when their situation appeared absolutely hopeless.

It was on the Artois front. The Germans had just sprung a mine right up against the French trenches, burying 15 men under the mass of upheaved earth.

While the survivors were engaged in a desperate struggle with the attack-

## WOUNDED SOLDIER'S FIRST CALL WHEN PICKED UP IS FOR A SMOKE

Photo by American Press Association.

From all the various battle fronts in Europe, east and west, comes almost unanimous testimony that the first request of the wounded soldier is for a smoke. Pain and discomfort—unless the wounded man is too far gone—are forgotten in the desire to still the craving for tobacco. In several countries societies have been formed to send smoking materials to the men at the front. The illustration depicts a British Red Cross worker at the Dardanelles lighting a cigarette for a wounded soldier.

King German company Jean A. dashed forward to extricate his buried comrades. He succeeded in rescuing the first six with his hands and carried them one by one to the emergency station. He then seized a pick and shovel and headless of the storm of shrapnel returned to the scene of the explosion, and dug out three more, whom he also carried to the ambulance.

Continuing his task, he extricated the tenth man at the end of three-quarters of an hour, and was about to start back with him when a shell burst close at hand and a splinter carried away his left arm. He had just strength enough to drag himself to the trench and then he lost consciousness.

His first question on recovering consciousness was whether his 10 comrades were safe.

## POLICE NEWS

Three drunks and one man held for assault were at the station last evening.

## SQUAB PIGEONS FOR CITY LOFTS

Washington, D. C. Sept. 13.—The city or suburban man who keeps pigeons either for pleasure or as a source of some profit, will find much practical information in the New Farmers' Bulletin No. 684, Squab Raising, recently issued by the poultry specialists of the United States Department of Agriculture. To the city owner the bulletin offers practical suggestions as to breeds, housing, care and feeding of pigeons to produce squabs for his own table or possibly for sale.

The bulletin opens with a strong caution to those thinking about raising pigeons for profit not to expect them to be an automatic gold mine. As a result of inquiries addressed to hundreds of commercial raisers of pigeons, the department's investigator finds that an annual profit of \$1.50 for a pair of breeders is considered good. It is pointed out also that pigeons cannot be left to themselves, if they are to be of profit, and that profitable squab raising calls for good breeding stock, special experience, business ability and a good, steady market. To quote the author: "There have been many failures in squab plants, as the profits in this business have frequently been over estimated and the care of the stock wrongly estimated as something very easy in which anyone could succeed." Many people can keep pigeons successfully as a side issue, although this requires constant oversight and attention to details.

As the price paid for squabs is largely affected by their size and color of their flesh, the squab raiser should be very careful about selecting breeds. The Homer seems to be the most popular breed for squab raising, but the Carneau pigeon, a larger bird, has recently become popular. Several other varieties of larger pigeons are used, especially in crossing with the Homer and Carneau. The Fant is one of the largest but it is not as prolific or as good a breeder or feeder as the Homer. Variety alone, however, does not guarantee successful squabs. Birds differ individually and they should be selected for their productive power, quality and size of squabs and their ability to feed and rear offspring. Breeders with dark-colored skins, legs or beak may give a poorer market quality of squab than those bred from birds which have white or pinkish white skin and light colored legs.

Pigeons are most valuable as squab producers when from two to six years old, although many will breed until they are nearly eight years old. The small varieties breed and mate at 5 to 6 months, the larger varieties at 8 to 9 months. The amateur should therefore buy from an thoroughly reliable dealer mated pigeons from two to three years old, or secure young birds six to eight weeks old and mate them at the proper age. In mating, the breeders should be selected with a definite object, using males strong in points in which their females are weak. This can be accomplished either through natural mating or by forced mating in confining the birds in coops, separating them by means of a movable wire mesh partition, which can be opened after the birds have seen each other for six or ten days. Care should be taken not to have extra unmated males in the loft because these interfere with squab production. For feeding pigeons a good mixture may

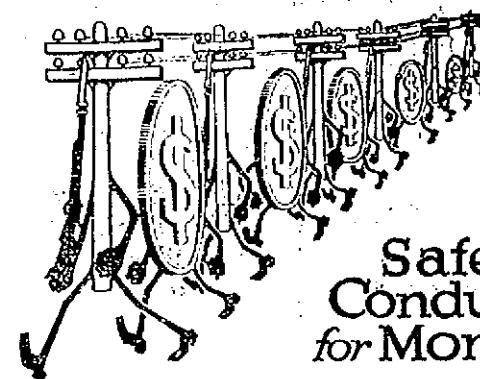

be made with equal parts by weight of cracked corn, hard red wheat, kafir corn, and Canada peas. To this ten per cent of hemp and millet seed can be added during the molting period. Other grains which may be substituted for or added to these are peanuts, oats or hulled oats, buckwheat, Egyptian corn, barley, cowpeas and milo maize. A small quantity of stale bread, rice, rape, millet, canary, vetch and sunflower seed may be fed for variety. Green feed such as cut clover, alfalfa, grass, lettuce, and plantain leaves may be fed to advantage, but is not absolutely essential. The essential is a variety of good, hard grains, and no grain which is in poor condition should be fed. Old grains which are hard are better than new, soft grains. Good wheat screenings are also fed with success and the very stimulating seeds such as lentils and vetch, are sometimes used as tonic during the molting season. The grain may be fed on the floor of the pen if it is clean, in troughs, or best kept from the birds in hoppers, which keep the birds from scattering the feed. Where are hoppers are not used the pigeons should be fed twice daily, in the morning and in the afternoon giving them from 1 to 2 quarts of grain at each meal for 20 birds. An extra pint should be added if there are many squabs. As a general rule the quality must be regulated according to the appetite and the birds have all they will clean up in 1 to 2 hours. It costs from \$1 to \$1.50 a year to feed a pair, according to the local price of grain, and the average reported by a number of growers was \$1.32.

Clear drinking water in vessels so that the pigeons cannot bathe in them, grit, broken oyster shells and charcoal should be kept before the pigeons all the time. Salt should be fed and it is best in a lump form as rock salt or as fine salt moistened and baked into a hard lump. Both pens should be provided daily with water except during the winter. They should be emptied by noon. The bath pens should be used only about twice a week during the winter and then should be placed on the floor inside the house.

Pigeons rear and feed their squabs with a thick, creamy mixture called pigeon milk produced in the crop of the pigeons. It is therefore essential that pigeons with squabs have a plentiful supply of grain. As the pigeons feed their squabs shortly after their own meal, care should be taken not to disturb them at that time. It is best to water them before they are fed. Pigeons with squabs should never be frightened and should be disturbed as little as possible.

## Building a Pigeon House

It will cost, as a general proposition, from \$1.25 to \$1.75 a pair to construct and equip a good pigeon house, provided with an outside wire netting pen or flyway. At the same time, however, pigeons can be accommodated in less pretentious houses and will do well if the loft is built in accordance with the modern methods of constructing a chicken house. A loft under a peaked roof can be used. A gable-roof building 10 to 15 feet wide, 6 feet from the floor to the eaves, and 8 to 9 feet to the ridge makes a good pigeon house. A pen 8 by 9 feet will accommodate 2 pairs of pigeons, while 10 pairs may be kept in a pen 8 by 13 feet. The necessary floor space to allow per pair

THE WESTERN UNION TELEGRAPH CO.

varies from 2 1/2 to 3 square feet, according to the size of the pen, as a pair of birds requires less floor-space in large than in small pens. From 20 to 75 pairs of pigeons may be kept to advantage in each pen. Essentials are fresh air, interior dryness, and good drainage of the ground, plenty of sunlight and space enough for the comfort of the pigeons. A southern or southeastern exposure is best, although if the roof slopes to the south it may be too hot in summer. Pigeon houses should be as nearly as possible as it is possible to make them and therefore the floor should be from 12 to 21 inches above the ground. If the ground under the pigeon house is closed in, openings should be made so that cats and dogs can get under after rats with out being able to get at the pigeons. The floors, except in the southern climates, should be double, with building paper between the layers. The house should be tightly built, as draughts are very objectionable.

Windows should make up about one-tenth of the front and be so arranged that they can be taken out during the warm weather. One window in each pen may be replaced by muslin curtains for ventilation in cold weather. Windows should be placed just below

the eaves so that the sun may shine well back into the house.

Where a flyway is provided long porches or boards should be arranged along the sides as it is bad policy to have roosts extend across the cage. Roosting boards the shape of an A are best. They should be placed over each other so that the pigeons will not be soiled by droppings. Nest boxes are usually made about 12 inches square. Provision should be made for good ventilation in the pen without creating draughts. Some breeders, however, prefer a box 12 inches high and wide with a depth from front to back of 15 to 18 inches. Nesting pans of fiber or earthenware 3 to 4 inches deep and 8 to 10 inches in diameter may be used, although some breeders do without pans by putting a 3-inch strip on the front of the nest. Nesting material of short pieces of hay, straw, pine needles, and tobacco stems, should be kept accessible to the pigeons in the house.

Those interested in pigeons and who wish fuller information may obtain Farmers' Bulletin No. 684, Squab Raising, on application to the Editor and Chief, Division of Publications, U. S. Department of Agriculture, Washington, D. C.

in perfect condition.

But more important—these flakes are made by a new process that gives them a new form and a distinctive flavour, entirely different from other corn flakes.

In this new process, intense heat expands the interior moisture, producing little pearl-like "puffs," a distinguishing characteristic of the NEW POST TOASTIES.

These flakes have a body and firmness that don't mush down, even when cream or milk is added. Toasties come factory-fresh, as crisp and delicious as when they leave the big ovens.

## Mr. Taft's Sound Views.

Strictly in line with what this paper has pointed out on numerous occasions were the words of ex-President Taft in an address delivered before the American Bankers' Association at Seattle a few days ago relative to the regulation of railroads, which have suffered severely in recent years through official regulation on one hand and the activity of the labor unions on the other. This sort of thing has gone so far that some of the railroads have been badly crippled, and it is now recognized that relief must be afforded if the business of the country is not to suffer even more seriously than it has through over-interference with one of the most important enterprises of modern times.

Mr. Taft said that the close and absolute supervision over the management of railroads, with restriction on the rates that can be charged by them in interstate commerce and commerce within the states, together with the increase in the cost of maintenance and of wages through the efforts of the labor unions, has ground the roads between the upper and the nether millstones, greatly to the detriment of the business of the country and of the wage earners who depend upon normal business conditions to maintain a normal demand for labor. "We are all in the same boat," said Mr. Taft. "The prosperity of one class is dependent on the prosperity of all. This is no reason why we should not repress injustice and punish abuse of power, but it is a reason why we should not indulge in excess."

"These are facts that are recognized by observant men, and there is consequently a growing disposition to curb the regulation which in many instances amounted to little less than persecution. The public was and is sincere in its demand for protection against exploitation on the part of the railroads and other powerful corporations, and to this it is entitled. But there is such a thing as overdoing, and it is becoming clear that the matter of regulation has been overdone at some points and that to the railroads especially certain relief must be afforded if they are to serve the public acceptably. To do this they must have reasonable conditions and reasonable profits, the same as any other concern or individual."

Mr. Taft referred to the action of the government in compelling the railroads to carry the mails since the introduction of the parcel post at the same rates that were paid before as an "outrageous injustice," an indictment that will be approved by every fair-minded man. His address has attracted wide public attention and is worthy of careful consideration. He said other large business enterprises have suffered the same as the railroads, and the substance of his remarks was that it is time for reform in the work of reform.

It is reported that the Oregon apple crop will be only about one-third the size of last year's. But even at this, it will make something like 750 car loads, which shows that Oregon stands well to the front in the list of apple growing states. But it can grow no better apples than can be grown in the eastern states with proper care, and, happily, some of the eastern farmers are finding this out and governing themselves accordingly.

Members of the Independent Order of Bachelor Maids, a New Jersey organization pledged to celibacy, are marrying off at a rate that threatens the life of the order unless the membership is substantially recruited through a belief that identification with the organization is a stepping stone to marriage.

It is a desperate fight that New Jersey is making against the mosquito, which was supposed to be oiled out of existence some years ago. The natives have evidently been studying German tactics, for they are now preparing to try chlorine gas.

Dr. Dumba thinks Correspondent Archibald was very stupid to allow the papers he carried to fall into the hands of the British authorities. He doesn't state what he thinks of his own part in the affair, but it can readily be imagined.

There is no reason why thrifty housewives should not "put up" plenty of peaches this year. The fruit is cheaper than usual and the price of sugar has just taken a drop, which, while not large, is both timely and welcome.

China is a republic, but the presidency is to be made permanent and hereditary. Is there any one in this country who would like such a condition here, provided he could name the president?

Some New York bankers fear that the huge shipments of gold from England may lead to a period of wild speculation. Nothing would better suit a certain element of the metropolis.

The recent spell of weather should have done something toward bringing backward crops up to date.

## OUR PUBLIC FORUM

R. P. Schwerin  
On the Seamen's Bill

The American plowman is interested in sea commerce. It is expensive and likewise humiliating to have to salute a foreign flag every time a farmer wants to ship a bushel of wheat, a bale of cotton or a pound of farm products across the ocean. The American farmer is entitled to the protection of his flag in sending his products across the sea, and Congress should give such encouragement to shipping interests as is necessary to meet foreign competition in ocean commerce. A recent bill known as the Seamen's Bill became a law under the President's signature and Mr. R. P. Schwerin, vice-president of the Pacific Mail Steamship Company, when asked to define this law and outline its effect upon American steamship lines, said in part:

"The bill provides that no ship of any nationality shall be permitted to depart from any port of the United States unless she has on board a crew not less than seventy-five per centum of which, in each department thereof, is able to understand any order given by the officers of such vessel, nor unless forty per centum in the first year, forty-five per centum in the second year, fifty per centum in the third year, fifty-five per centum in the fourth year after the passage of this Act, and thereafter fifty-five per centum of her deck crew, exclusive of licensed officers and apprentices, are of a rating not less than able seamen."

"The overseas trade of the world is competitive, therefore the original cost of the ship and the operation of the ship have to be reckoned with in the keen competition of these rival nations with one another. The Oriental sailor is obedient and competent and is the cheapest sailor in the world. It is therefore manifestly clear that if this law applied to all nationalities in the transpacific traffic, all would be on the same economic basis, but it works a 'hugio hardship' to all the ships of the world, except the Japanese and American ships, and with the latter it works two hardships. With the European, the cost of constructing a ship is no higher than the cost of constructing a Japanese ship, but if they had to provide European crews, while the Japanese operated with Japanese crews, the condition of competition would be such that they could not overcome the handicap and they would be driven off. But the American ship would have to contend not only with the tremendous increase of cost of wage in the substitution of the European crew for the Chinese crew, but also the greater initial cost of the ship. As the Japanese have now done away with their European officers and Japanese crews, all of whom speak a common language, there is no difficulty for them to comply with all the conditions of the bill and continue their Japanese crews with Oriental wages."

"The law, therefore, instead of assisting the American ship, adds another heavy burden, while it places upon the Japanese ship, but, on the contrary, turns over to the Japanese the traffic of the Pacific Ocean; which the American ship is forced to forego by act of Congress of the United States."

## CHARACTERISTICS OF THE ITALIAN ARMY

Udine, Italy, Sept. 9.—A stay of a few days at any of the sections into which the Italian front is divided will convince the neutral observer of several things. Two of these will suffice as chiefly characteristic of the Italian army, viz: the good humor of the Italian troops, even in the face of the most desperate straits; the excellent relations which exist at all times between the officers and men.

Shrapnel shells may explode at regular intervals in and around the Italian trenches, the roar of the guns may be deafening and fear inspiring, the rain of bullets may send clouds of dust and pebbles and chunks of rocks hurtling through the air—and yet the Italian soldier will always be ready to get all the fun he can out of the situation.

In fact the clammy hand of death may be lurking in every corner and yet his native smile will never desert him, the unpenetrable fire will never leave his eyes, he will always be ready for a joke at the expense of the unsuspecting comrade standing rifle in hand at his side, alert at the first sign of real danger.

This good humor, the radiant smile and the easy, cheerful ways of the Italian Tommy, even after the most blood ending operations, in which he may have risked his life a dozen times excites the wonder of the Austrian officers.

One of the latter in a letter to his mother which was found on the battlefield declared that he could not make up his mind whether these Italian soldiers were cynics or enthusiasts.

"For a whole day," continued the officer who is a devout Catholic, "I was prevented from training a gun against a certain spot because I saw through my field glasses that an ammunition wagon was guarded by a priest armed with a long shining cross."

When the Italians evacuated the spot it was discovered that the priest was nothing more nor less than a black hussack and a wide-brimmed hat, supported on two wooden sticks and the cross formed out of a number of the most cans.

Music and singing, however form the chief diversions of the Italian troops, whenever and wherever the officers allow it. As Colonel Dunn, military attaché of the American embassy remarked after a short visit to the Italian front, "These campments behind the firing line are more like a picnic party than soldiers on a battlefield."

Every contingent has its quota of guitar and mandolin players and night concerts follow each other on every side until the last post, is sounded and the regiment retires under canvas. But even then, after the patrol has disappeared to the farthest end of the camp a tender and touching melody steals through the air, hailing the nearby rest less to sleep.

As to the relations existing between the officers and men in the ranks, they form in the opinion of Captain Hayashi, member of the Japanese military mission, a striking feature of the war. Italian military discipline is strict, but not harsh. It is maintained by kindness and justice rather than by fear.

First, the officers treat their men as they deserve to be treated; kindly, humanely. Moreover they do it without loss of dignity. Hence, the soldiers respect, honor and even love their superiors.

"In the trenches and everywhere on the firing line, where danger is the greatest the feeling of devoted comradeship between officers and men is admirable and it is safe to say that every soldier is ready and willing to lay down his life for his superior. On the other hand the highest compliment that the commander of an operating army can pay to one of his officers is to tell him that a certain objective was reached or that a certain place was occupied with a smaller sacrifice of life than had been expected. Stories of soldiers who risked their lives to save those of their officers are a daily occurrence at the Italian front."

While at first these acts of bravery and courage excited admiration and were invariably rewarded they pass now almost unnoticed.

## REFUSED TO MAKE ANY STATEMENT

### Premier Asquith Declines to Talk on Attitude Toward Conscription.

(Special to The Herald)

London, Sept. 14.—When parliament reconvened today efforts were made to secure from the government a statement as to its attitude towards conscription. When the Premier was asked what steps the government would take in regard to it he refused to make any statement upon the matter.

## FRENCH ARE KEEPING UP THEIR ATTACK

(Special to The Herald)

Paris, Sept. 14.—French aviators on the southern end of the battle front are keeping up their offensive against the Germans. The important German railway point of Bensdorf has been bombarded. The German contentments at Chapel in the Argonne forest have also been shelled from the air. The latest attacks by French airmen were officially announced today by the French war office. Bensdorf lies 23 miles southeast of Metz. There was a violent artillery duel throughout the whole of Monday at various points on the front.

## TURKISH CITY BURNING

### As Result of Bombardment by the Warships of the Allies.

(Special to The Herald)

Athens, Sept. 14.—The Turkish city of Phocaea on the coast of Asia Minor is burning as the result of a bombardment by allied warships. The city has been on fire since last Friday, when the ships began shelling it. Phocaea is 25 miles northwest of Smyrna.

## BOSTON LETTER

Boston, Sept. 14.—Just how little the war has affected the automobile business in Massachusetts is shown by statistics compiled by the automobile department of the state of highway commission. According to these statistics more cars and trucks have been registered in the first eight months of 1915 than in the entire year of 1914.

The number of operators' licenses also show a large increase. The number of new licenses issued to operators and chauffeurs was 21,078 for the first eight months of last year, an aggregate of \$3,111 for the same period this year, or an increase of 55 per cent. These figures point to the purchase of many cars this year. The renewal of licenses numbered 10,362, an increase of 18 per cent. As a total of 101,173 licenses were issued that means one license for every 35 men, women and children in the state. During the first eight months of 1915 no less than 101,553 cars and motor trucks were registered, as compared with 77,216 for the entire year of 1914. Of the total number, 33,168 belonged to individuals and firms, and \$195 to manufacturers of cars and dealers in motor vehicles. The number of motorcycles increased from 3161 to 5337. The number of manufacturers and dealers in motor vehicles show a large increase, rising from 1513 in 1914 to 1699 this year. A rough estimate would place the dealers' licenses at \$500, or about five each. The increase in private operators has been larger and greater than the number of chauffeurs, whose applications arose from 5635 to 7519. The increasing use of the motor truck in business is shown by the 7672 such cars in 1914 and 10,590 this year, or an increase of 42 per cent.

Motorcycles showed a smaller gain of 17 per cent, while the total registration increased 30 per cent as compared with 23 per cent increase in 1914. The receipts from the licenses show an increase of 28 per cent so far this year over that of 1914, the figures being \$1,118,981.81 and \$225,961.75 respectively. The net receipts are applied to the maintenance of roads, particularly such as are not classified as state highways.

Boston, Sept. 14.—Much testimony relative to the laws dealing with fraudulent advertising has been obtained from various states by a special committee appointed by the Boston Chamber of Commerce.

Philadelphia, Sept. 13.—The thirty-seventh annual tournament for the Intercollegiate lawn tennis championship of the United States in singles and doubles opened today on the courts of the Merion Cricket Club at Haverford. Weather conditions were perfect.

Harvard, Yale, Princeton, University of Pennsylvania, Cornell, Amherst, Haverford, Dartmouth and Williams are members of the Intercollegiate Association, and all have sent representatives to the tournament.

The Intercollegiate championship in singles last year was won by George M. Church of Princeton, who defeated H. Norris Williams, 2d, of Harvard. Church has been graduated from Princeton, and Williams again looms up as the logical winner of the title. The Intercollegiate doubles championship is held by Williams and Richard Harbo of Harvard.

Philadelphia, Sept. 13.—The thirty-seventh annual tournament for the Intercollegiate lawn tennis championship of the United States in singles and doubles opened today on the courts of the Merion Cricket Club at Haverford. Weather conditions were perfect.

Harvard, Yale, Princeton, University of Pennsylvania, Cornell, Amherst, Haverford, Dartmouth and Williams are members of the Intercollegiate Association, and all have sent representatives to the tournament.

## CURRENT OPINION

Safety for U. S. Lies in Strength to Defend Itself Against Aggression.

An American is entitled to the protection of his government so long as he conducts himself in accordance with law.

It is his duty to give all he has—his life, if necessary—that the government shall live. But the duty is reciprocal. Where the flag goes over an American he is entitled to that protection by land and by sea if he was naturalized yesterday or his family had been in this country three hundred years.

We fortunately are not involved in war. We are at peace. Two things are necessary to maintain that peace, and I do not mean peace that carries with it humiliation, shame, dishonor.

First, the preservation of our neutrality, our rights as neutrals, must be preserved. We should be at the head of all other neutral nations in a combination of interests to preserve our neutral rights.

The second thing is this: We must make it clear to all nations that we cannot be attacked or invaded with impunity.

We must be prepared to defend ourselves by a big army and navy, a navy strong enough to defend us thoroughly.

The danger may come when the war is over. The times are troubled. The outlook is uncertain. I want my country to be armed for its own protection. I want my country to be prepared for the worst.—By Henry Cabot Lodge, Senator from Massachusetts.

ber of Commerce officers, and a report based on the information secured will be made soon to the directors of that body. The committee directed its inquiry especially to the states that have adopted the so-called "Printers' Ink" model law, and representative newspapers were asked their opinions of the value of this law, and letters sent also to advertising clubs and publicity associations in those states, and to the prosecuting attorneys in New Jersey, Ohio, Wisconsin and Washington. The present Massachusetts law aiming to limit and restrict fraudulent advertising is hard to enforce," according to an official statement from the chamber, and may be easily evaded by persons dishonestly inclined. Specific instances have been cited against the Advertising Vigilance Association, the retail trade and other bodies.

### HEALTH NEWS

#### Sanitary Improvements in North Carolina

In a recent issue of the Public Health Reports the U. S. Public Health service again calls attention to the sanitary progress that is being made in the city of Wilmington, North Carolina. Not long ago it was reported that every home in Cape Fear township had a toilet. Now a second township in this county, namely, Masonboro township, has a toilet in every home. On October 1, 1914 11 per cent of the white families and 47 per cent of the negro families had no toilets of any description. This progress in rural sanitation is very significant when we consider that approximately one half of all farm homes in the Gulf Atlantic States have no sanitary convenience of this type.

The county board of education has now provided for every rural school in the entire county a sanitary toilet, with concrete tanks. So far as statistics are available at the present moment, no rural school in the entire South is equal to New Hanover in its school sanitation. If any other county has as good school sanitation as New Hanover, it certainly should not hide its light under a bushel.

In discussing the striking features of the New Hanover work the Public Health Report mentions in the first instance the intelligence with which New Hanover inhabitants are going about this work. Among the other striking features may be mentioned the fact that the actual field work is done by sanitary policemen, also that the work is accomplished by persuasive methods instead of through the police court; further that the ideals held are not attained immediately in all cases.

Perhaps the most remarkable point in the campaign is the recent action by the Wilmington city council which has just voted to make available the sum of \$50,000 on loan for the exclusive purpose of changing privies to flush closets. Properly owners may borrow money enough to make the change in construction, securing the loan by a note at six per cent and made payable in installments to suit their convenience. This appropriation is in addition to the \$50,000 just voted for the improvements in the water supply and \$10,000 for an anti-mosquito campaign.

### COLLEGE TENNIS STARTS

Philadelphia, Sept. 13.—The thirty-seventh annual tournament for the Intercollegiate lawn tennis championship of the United States in singles and doubles opened today on the courts of the Merion Cricket Club at Haverford. Weather conditions were perfect.

Harvard, Yale, Princeton, University of Pennsylvania, Cornell, Amherst, Haverford, Dartmouth and Williams are members of the Intercollegiate Association, and all have sent representatives to the tournament.

The Intercollegiate championship in singles last year was won by George M. Church of Princeton, who defeated H. Norris Williams, 2d, of Harvard. Church has been graduated from Princeton, and Williams again looms up as the logical winner of the title. The Intercollegiate doubles championship is held by Williams and Richard Harbo of Harvard.

Philadelphia, Sept. 13.—The thirty-seventh annual tournament for the Intercollegiate lawn tennis championship of the United States in singles and doubles opened today on the courts of the Merion Cricket Club at Haverford. Weather conditions were perfect.

Harvard, Yale, Princeton, University of Pennsylvania, Cornell, Amherst, Haverford, Dartmouth and Williams are members of the Intercollegiate Association, and all have sent representatives to the tournament.

## INTEGRITY IN POETRY IS A RARE THING

SOME SONNETS THAT ARE BEAUTIFUL, BEING ALSO HISTORICALLY CORRECT.

"The Story of America Sketched in Sonnets" is another of the unusual books by Mr. Henry Frank. It is very original in construction; that is, it is a story intelligently planned and carefully perfected. It may be called a 'perfect' truthfulness be called an 'American' classic.

The author says he "does not pretend to have presented anything like a complete history of the nation. His effort has been made to seize only on the salient events and conspicuous characters, and to weave their story in the metric setting of the sonnet form."

Mr. Frank is a master of the language. He is historically correct; scientifically sound. His ideas are sensible, lofty. He sees the ideals of America; he expresses the 'hope' of America; he sings his best songs for America. The book as poetry is interesting and this is highly praiseworthy.

This particular book by Mr. Frank was first published by Sherman, French & Company of Boston, in 1911. There are sixty-five sonnets and 235 pages of historical notes. The book will, just as new fifty or one hundred years, from now as when first published.

America  
I sing the child of Freedom, born on earth  
Of bloody conflict and time-worn wrong;  
Now grown to full and perfect manhood, strong  
In pride, in spirit, virtue, proud of birth—  
A nation, whose just principles enshrine  
The world, and all mankind inspire  
With song  
Of justice, human rights and civic worth,  
For earth's overwhelmed and despot-ridden throng!

America—last born of nations, youngest  
Yet old in wisdom; from India's mystic soil,  
And lofty brain of Greece, thy spirit sprung,  
Responds with hope to sorrow's age-long toll.  
To thee, from outmost isle and distant clime,  
Men cry for rescue from the wrongs of time!

This is an agreeable contrast from the national poetry of the present, much of it so murderously belligerent and so essentially national and narrow. This is therefore a more timely book in 1915 than it was in 1911. It is a relief from all of the war news. Mr. Frank has an object more than the profit from writing books. It is a plea for American social justice and political morality.

The historical notes are mostly carefully selected quotations from the standard histories, with connecting, illuminating comments. They also include selections and references from the best works of Dr. Washington Gladden, Henry George and Robert M. La Follette. Mr. Frank, in spirit, is with such men as these.

The sonnets cover American history which has been divided into seven periods: Colonial, revolutionary, the founding of the Republic, growth of the nation, the period of slavery and industrial epochs and the age of world conquest. "If, perchance," says the author, "they may have struck a genuine note of patriotism that will key the reader to a plot of higher enthusiasm for his country's primal principles and lofty ideals, he will be happily repaid for his labor of love."

JUSTIN HENRY SHAW.

## HOUSECLEANING! HELP! HELP!

Housecleaning in the way mother used to do it was strenuous work. Chores reigned and elbow grease was the chief lubricant. Today science has lessened her labors. There are cleaners, sweepers, scrubbers, mops, and a thousand and one devices for saving time and toil. The first step towards correct housecleaning is the choice of the right materials to work with and in finding these the advice of the advertising columns of this newspaper may be of assistance.

## SOLDIER DIGS OWN GRAVE

Berlin, Sept. 14.—Captain H. Rohrer, of the 11st Reserve Infantry regiment writes from the front in the Champagne:

"After a thunderstorm I took a walk behind our lines to dry my uniform on my body. I visited a small cemetery where many of our soldiers are buried. In the little graveyard I found the chaplain of our regiment saying prayers over the body of a very young husband. Four other members were sadly digging a grave.

"After the husband was buried the chaplain begged the landowners to dig a reserve grave but only one of them consented and went to work again. He was a small farmer from Madagat—the father of a large family. While he worked he told me that he had three sons in the front and two of them had already earned the iron cross. Some jolly young fellow will soon be in the ditch that I have made," he said sadly, after he had finished his job.

"The next morning I came to the cemetery again. Ten or twelve soldiers were standing around the new grave in silent prayer while the chaplain pronounced a benediction. When I stepped nearer I saw that the body that had just been lowered into the earth was that of my landowner. The poor man had dug his own grave. During the night a French shell had torn him to pieces.

## OUTING AT MANCHESTER

Ernest L. Chumey and Andrew O. Caswell are attending the outing of the State Association of Elks at Recreation Park, Manchester, today.

Itched, eczema, itch or salt rheum, set you crazy. Can't bear the touch of your clothing. Doan's Ointment is fine for skin itching. All druggists sell it. 60c a box.

## NEW RECTOR APPOINTED

Rev. D. Alex Sullivan Succeeds Late Rev. E. J. Walsh.

Rev. D. Alex Sullivan, pastor of All Saints Church, Lancaster, has been appointed permanent rector of the Church of the Immaculate Conception of this city, and his assistant will be Rev. John P. Moran of St. John the Baptist Church, at Suncook. In the appointment of Father Sullivan, Portsmouth gets one of the best known men among the clergy in the diocese of Manchester and his appointment is most pleasing to the parishioners.

Father Sullivan is a native of Manchester and has been located at Lancaster for nearly eighteen years. Some years ago he was for a short time at Newfields. At Lancaster where he has served so long he will be greatly missed by the people in general to whom he was near and dear. In the management of the parish affairs there he has made the property the most beautiful of any in the mountain district and leaves the same without debt. He is an excellent speaker and has taken great interest in all that was good for the advancement of the town which he is about to leave. Both priests will assume their duties here on Sunday next.

In addition to the changes announced, on Monday, a few more are expected to follow shortly. The list of transfer of pastors and curates so far are the following:

Rev. J. J. Bradley, pastor of St. Patrick's church, West Manchester, is named permanent rector of St. Mary's parish, Dover.

Rev. D. Alex Sullivan, pastor of All Saints church, Lancaster, is named permanent rector of the parish of the Immaculate Conception church, Portsmouth.

Rev. T. W. Conkley, pastor of St. Peter's church, North Walpole, is named pastor of St. Patrick's parish, Manchester.

Rev. O. P. Bosquet, assistant pastor of the Sacred Heart parish, Laconia, is named rector of the Immaculate Conception parish, Troy.

Rev. D. B. Gorman, assistant pastor of St. Anne's church, Manchester, is named pastor of St. Matthew's parish, Whitefield.

This above list includes the pastors changed.

The following assistants changes were also announced:

Rev. John P. Moran is transferred from St. John the Baptist church at Suncook to the Immaculate Conception parish at Portsmouth.

Rev. P. C. Cunniff is transferred from the Sacred Heart parish at Concord, to St. John, the Baptist church, Suncook.

Rev. P. A. Mulvanity who has been administrator since the death of Rev. E. J. Walsh of the Church of the Immaculate Conception of Portsmouth has been appointed chaplain of the Infant asylum of Our Lady of Perpetual Help, Manchester.

Rev. J. J. Doyd, chaplain of the Infant Asylum of Our Lady of Perpetual Help, Manchester, has been transferred as curate to St. Anne's parish, Manchester.

Rev. C. M. A. Dangle, D. D., is transferred from the Immaculate Conception parish, Portsmouth, to St. Martin's parish, Somersworth.

Rev. Fr. Ernest Cooper is transferred from the chaplaincy of Villa Augustine, Goffstown, to Sacred Heart parish, Concord.

Rev. S. Veilleux is transferred from St. Martin's parish, Somersworth, to the Sacred Heart parish, Laconia.

## NAVY YARD NOTES

Will Have Guns

The department has authorized the installation of magazine and guns on the U. S. S. Hannibal and hereafter the ship will be equipped to do work as a gunboat as well as survey duty.

Taken Suddenly Ill

One of the prisoners from the naval prison in a yard working crew became suddenly ill this morning and was conveyed to the yard hospital for treatment.

Board in Session

The board on the retirement of Paymaster's Clerk J. J. Flynn, ordered by the department two weeks ago, commenced today.

Put in for Coal

The army steamer General Schofield put in at the yard today for a supply of coal.

Fixing up Flagstaff

A crew of riggers are renewing the rigging and otherwise repairing the yard flagstaff.

For the Vulcan

A 2000-gallon distiller was received from the Boston yard today and will be installed on the collier Vulcan.

More Workmen Called

The labor board today issued calls for 9 house carpenters, 7 boatbuilders,

1 coppersmith, 1 ship plumber, 2 machinists and 1 boy.

Machinists Wanted

The list of machinists has been exhausted and mechanics in this trade are still wanted.

Still in the Air

The Industrial Department has not as yet received any official information relative to the awarding of the contract on the "Surveyor," a boat for work on the Alaskan coast, which was authorized by the treasury department, and on which the local yard was the lowest bidder.

## PARLIAMENT IS NOW IN SESSION

(Continued from Page One.)

all his foes are scattered at once.

There is a fatal bar in the way of Mr. Lloyd George's immediate advancement. The Unionists—the strongest party in the house, put up with Mr. Asquith, but they won't have the ex-chancellor as prime minister at any price.

Then there is also a liberal revolt against the minister of munitions because of his conceptionist views, although these are prompted entirely by a determination to win the war as speedily as possible, yet a fortnight before the outbreak of hostilities, he was one of the foremost advocates of peace and a staunch supporter of a general reduction of armaments.

Mr. Lloyd George has a glorious gift of speech, but Mr. Asquith has proved himself possessed of an immense reserve of power, which he exercises only when driven into a corner. The general view therefore is that unless unforeseen circumstances arise, England will not have a change of premier ship before the end of the war.

There will be little government business in the new session, and it is not expected to last very long. The Chancellor of the Exchequer will, of course, give some indication of the means by which the government proposes to raise more money to finance the war, and apart from wholesale indirect taxation, the income tax is expected to be raised to as much as 25 per cent.

Such a proposal will meet with the sternest opposition, as most members think that the cost of the war should be spread over 25 or even 50 years, and that no attempt should be made to impose on the present generation taxation which would go far to impoverish the great majority of the revenue earning classes.

Mr. Lloyd George will be drawn out as to how England is progressing in the matter of producing munitions and the president of the local government board will be asked to indicate the reserves of men available for military service as disclosed by the returns of the recent National Register.

The advocates of conscription are also bound to question the Premier as to whether the progress of recruiting is such that England can hope to win the war on the voluntary system, and if not when conscription will be put into force.

But in the opinion of leading parliamentarians, finance will hold the leading place in the session, and it will not be surprising if Mr. McKenna, notwithstanding the success of the last war loan has to announce the determination of the government, again to appeal to the patriotism of the country to come to the rescue of the treasury by participating in another huge loan.

## PORTSMOUTH THEATRE

(MUSIC HALL)

F. W. HARTFORD, Manager.

For Monday and Tuesday

Picture—"Neal of the Navy," in 14 episodes. This is Episode two—2 reels.

This is the greatest American serial ever screened. The first episode showed that by the immense applaud at the end of the reel. This one is still more thrilling. It is called "The Yellow Packet."

ACT—Sorrelty and Antoinette Co.—European Novelty act.

Picture—"The Goddess"—second episode, 2 parts.

This is a very good serial story featuring Earl Williams and Anita Stewart. Fine scenery and excellent acting by all the cast.

ACT—Ramsey Sisters—Merry Musical Maids.

Picture—"The Wanderer"—Biograph Drama.

A Griffith release. This picture tells a cleverly devised romance, in which Henry B. Walthall has the leading role.

Picture—"Lost in the Swim"—Mina Comedy.

A funny one, just as funny as "Chaplin."

ACT—Ben Lewin and Co., in "The Devil's Mate." Sensational Novelty Playlet.

Picture—"Road O' Strife"—12th episode called "The Sacrifice."

Its getting more interesting every reel. More people are asking, "When does it go on?"

Wednesday and Thursday

Francis X. Buskin in a three reel drama called "The Plum Tree"—One of the best.

## ARTILLERY CORPS BACK FROM CAMP

Four Companies of Coast Artillery Corps Present Fine Appearance.

The New Hampshire Coast Artillery Corps, which comprises the companies located in Exeter, Laconia, Dover and this city, broke camp at New Castle this morning after a week's tour of duty with the regulars.

At noon the men boarded the army steamer Capt. T. W. Morrison and came to this city. On their arrival at Broughton's wharf line was formed and the battalion, in command of Major Chauncey H. Hoyt, headed by the First Regiment band of Manchester, marched up Daniel, Congress, Middle, Court, Rogers streets to the armory of the First Company of this city. The up-state companies will return home on the late afternoon trains. The tour of duty is said to have been one of the most successful in the history of this branch of the service. Capt. Stewart, U. S. A., who was designated by the war department as instructor, has been present at the encampment.

## REBUKED BY ENGLISH OFFICER

Geneva, Sept. 14.—A remarkable scene has occurred at a Zermatt hotel which in normal times is full of English Alpinists, but in which today there are only Englishwomen and a few elderly men.

One evening after dinner three young Englishmen who had just made a difficult ascent, were discussing the climb when an elderly colonel rebuked them in rather strong language for being in Switzerland at all.

Turning towards the visitors the colonel said: "Ladies you should boycott these slackers. They should not be climbing mountains, but out of the trenches, like my two sons."

The officer was cheerful, and the three Englishmen after standing the icy silence for two days, left the hotel for London.

## FASHIONABLE AILMENTS DISAPPEAR

London, Sept. 14.—Some of the most fashionable West End physicians have been badly hit by the war. This is mainly caused by the shrinking of the number of imaginary ailments. Those people who used to swell the fashionable physicians' bank balance with their fancied maladies have now simply no time to imagine themselves ill, or rather, the war has distracted their attention. One never seems to meet a hypochondriac or neurotic in these days. The war has also been the cause of the termination of many family feuds.

## A MEAL AMID THE SHELLS

Kearney, N. J. Sept. 14.—Albert Rollins of this city has just received a letter from his brother, Harry Rollins of Exeter, Worcestershire, England who is fighting in the trenches, exactly where, Albert don't know. Harry has got a "hit on the forehead with a piece of shrapnel," but is "carrying on." Here is his picture of life near the firing line:

"We get it pretty stiff out here now and again, especially when there is a bombardment on and hundreds of shells of all sort and sizes whizzing and whistling round like rain and one has a lovely dinner of Chicago can, and biscuits as hard as bricks and a drop of water with a good percentage of Condy's fluid in it to kill all the germs put before you in a huge rabbit hole dug in the ground, called a dug-out, where you have to keep your head down and look out for trench mortars coming over."

"HIGH JINKS."

It isn't often that a young woman finds it more profitable to be a chorus girl than a successful principal. But such, however, is the experience of Edith Warren, who leads to "High Jinks Tangle," in "High Jinks" which comes to the Colonial Theatre Thursday, September 16, for one night only. The young woman attended a school

of elocution for two years and took a course in voice training for another two years. At the end of that time she entered vaudeville, and after a successful season joined the Charles Dillingham forces, singing small roles in several of his productions. When "High Jinks" opened in New York, Miss Warren was given a role of small importance. She played successfully, but her manner of dancing appealed to Arthur Hammerstein, the producer, more than her singing. Her role was taken away from her and she was made the leader of the "High Jinks Tangle" dance, which calls for various gymnastics.

Six girls had preceded her and none was able to fill the part. She did. The young woman had been getting \$75 a week, and when she was sent from the rank of a principal to the chorus, she made strenuous objection and her salary was raised to \$100 a week, which is, perhaps, the highest priced chorus girl in America.

Miss Warren is under a three years' contract to Mr. Hammerstein and unless she breaks her engagement, her salary will be raised ten dollars a week each year for the succeeding two seasons.

## PERSONALS

Philip Marvin has entered Harvard College.

Wallace Day of Boston was here today on business.

Miss Nellie Cameron of Woonsocket, R. I., is visiting friends in this city.

Mrs. Robert Gove has returned to Boston after a brief visit in this city.

Michael Canty is reported as being quite ill at his home on Bartlett street.

T. E. Hutchins and family of New London, Conn., are visitors here on Monday.

Frank Hogan has returned to his studies at St. Anselm's College, Manchester.

Miss Mary O'Donnell left today for Hampton where she will pass the next two weeks.

Ralph Campbell returned to Hebron, Me., today to resume his studies at Hebron Academy.

John Allison of Portland, Me., a former resident, was here today renewing old acquaintances.

Miss Flynn has just returned from New York city with a full line of Fall and Winter millinery.

Frank P. McMahon and family have returned to this city after passing the summer at Wallis Sands.

Mr. Lawrence B. Wright is enjoying a vacation from his duties at the Piscataway Savings bank.

Chester Conlon left for Hanover this morning for the purpose of re-entering Dartmouth College.

Mrs. Charles P. Berry who has been passing a few days in this city has returned to Wolfeboro, N. H.

Willard Gray left on Monday for Worcester, Mass., where he will enter the Worcester Polytechnic school.

Everett N. McNabb has closed his summer home at Wallis Sands, and with his family returned to this city.

Mrs. E. C. Haskell who has been the guest of relatives in this city has returned to her home in Manchester.

Mrs. A. Judson Haight of Providence, R. I., is the guest of Mr. and Mrs. Charles E. Woodsum of Austin street.

Mrs. John W. Dunn who recently underwent an operation at the Carney Hospital in Boston, still remains in a critical condition.

Miss Mamie Welch who has been passing the summer at Ogunquit, Me., was a visitor here on Monday, later leaving for Dover.

Mr. and Mrs. Charles L. Stimpson of Mt. Dora, Florida, who have been passing the summer at Hedding were visitors here today.

P. A. Belden, superintendent of the Hockingham Light and Power Co., has gone to Lake Kinn to attend an electrical convention.

Chaplain Cutts Hoyt Dickens, U. S. N., who has been passing the summer at Wolfeboro, N. H., was here today renewing old acquaintances.

Mr. and Mrs. William T. Entwistle and daughter who have been passing the summer at York Beach have reopened their home on Hanover street.

Sherman P. Newton, son of Landlord Sherman T. Newton went to Hanover today where he will take the examination for entrance to Dartmouth College.

Mr. and Mrs. John Bryant of Myrtle avenue were called to Worcester, Mass., to attend the funeral of Mrs. Bryant's brother, Robert G. Carr who died suddenly Monday evening at his home, No. 16 Isabella street.

Mrs. Hayes, wife of Landlord Robert J. Hayes of the Langdon House, and Miss Mary S. Hayes of Lowell, Mass., left this Tuesday afternoon on a trip to New York, Albany, Niagara Falls and other places in New York state.

Mrs. A. L. Foote of Cambridge, Mass., and her daughter, Miss Helen G. Foote are visiting Mr. and Mrs. Charles H. Foote at their home on Hanover street. They made the trip to Portsmouth Sunday with Mr. and Mrs. George Knott by auto.

A household remedy in America for 25 years—Dr. Thomas' Electric Oil. For cuts, sprains, burns, scalds, bruises, 25c and 50c. At all drug stores. Read the Want Ads.

## Dress Well Without Being Extravagant

That's your problem and ours! We have taken into consideration that no man wants to spend too much on his clothes, so we sought the finest lines of clothing we could buy. The fit and finish of our garments are perfect. We want you to see our Fall models for young men. For the boys we have the "Right Posture" suits, a good health suit. Fall hats are in and ready for inspection.

**N. H. BEANE & CO.,**  
5 Congress Street 22 High Street.

## IN MEMORY. AUSTRALIA TO START SHIP LINE

Strawberry Bank Encampment Passes Resolutions on the Death of Orwin Griffin.

At a meeting of Strawberry Bank Encampment, No. 5, I. O. O. F., held Monday evening, Sept. 13, the following resolutions were passed:

Whereas, P. C. Patience Orwin Griffin has been removed from earth and his associations, be it

Resolved, That in the death of Brother Griffin Strawberry Bank Encampment, No. 5, I. O. O. F., loses one who had been a member many years and held in high estimation by all and was ready to help a brother.

Resolved, That this Encampment also loses an officer of long standing and who was faithful in service, having served as Outside Sentinel for thirty-three (33) years.

Resolved, That we trust our loss will be his gain and our recollections of him will ever be pleasant.

Resolved, That a copy of these resolutions be entered on the records, and be sent to the member of his family; also published in the daily papers.

Holding Back.  
"Me a tramp? No, sir; I'm a member of the army of toil."  
"I never see you toil."  
"I belong to the reserves."—Kansas City Journal.

Neat of the Navy, The Goddess, and the Road O' Strife, with three good acts of vaudeville, made the show at the Portsmouth Theatre last evening one of the best of the season.

## COLONIAL THEATRE Thursday Evening, Sept. 16th

Seats on sale at Box Office, Tuesday, Sept. 14. Box Office Hours, 9 to 2 a. m., 12.30 to 2 p. m., 5 to 8 p. m., 7 to 8 p. m.

# ALLIED DRIVE ON TURKS AT HAND

**Evidence That a General Advance at Gallipoli is Not Far Distant.--Chaos in Constantinople.**

London, Sept. 13.—Evidence accumulates that the Dardanelles is soon to be the scene of a determined attempt on the part of the Allies to break down the Turkish defence. While the British has not been particularly severe during the past few days, the facts that a new force has been landed on the peninsula with heavy siege guns and that the Turks are beginning to suffer for lack of munitions would indicate that the time was ripe for a move by the invaders. Reports from various quarters describe conditions in Constantinople as chaotic, with much suffering among the population, while other reports, coming through Athens, declare that the position of the Turkish forces on the Gallipoli peninsula is precarious. The Russians are increasing their activities in the Caucasus and it is believed that the arrival of Grand Duke Nicholas will be the signal for more important operations which will lessen the burden of the Allies who are trying to force the Dardanelles.

## Counter-Revolt in Turkey

Rome, Sept. 13.—The attitude of Djemal Pasha, former minister of war, is giving the Turkish Committee of Union and Progress much anxiety, the Tribune says. It has learned from sources of information in the Balkans, he is reported to be in Arabia in constant contact with sheiks and emirs hostile to the committee, while Arab preachers are trying to ferment rebellion among the inhabitants. "Tant"

Bey, minister of the interior, realizes, it is said, that the situation is serious and is not holding entirely aloof from the movement to return to power. Hilmi Pasha, former grand vizier, who now is ambassador to Austria-Hungary, hostility to the German policy is reported to be becoming increasingly violent.

A complete disagreement between Djemal Pasha and Enver Pasha, minister of war, as well as Talaat Bey, was reported early this month. It was intimated that the former minister of marine was suspected of preparing a coup d'etat against the Committee of Union and Progress. After the failure of the expedition against Egypt under his command, Djemal Pasha was ordered to Mesopotamia but apparently did not go there.

## Bulgar-Greek Encounter

Kavala, Greece, Sept. 13.—Reports of a frontier skirmish between Greek and Bulgarian patrols near Patonia have been officially confirmed and an investigation ordered. German aeroplanes, it is said here, are constantly flying over Serbian and Bulgarian territory from Orsova, Hungary, to Adrianople. Each of them is loaded to its full capacity, according to reports, with supplies for the Turks.

## Withdrawn From Niemen

Petrograd, via London, Sept. 13.—The Russian official communication is "killed" by the war office says that be-

cause of the salient of the armies on the Niemen it has been decided to reduce a short distance, still holding back the Austro-Germans' offensive. The text follows:

"Owing to the salient of our armies on the Niemen and south of the Niemen, it has been decided to withdraw them slightly while continuing to hold the enemy's offensive. In this action we had to sustain very strong attacks on the 11th on the lower Selwanka and the road leading to the Stenka and Baranovitch regions, and also at Kelm, Rozhany and southeast of Kossov.

"On the lower Selwanka we repulsed three German attacks throughout Saturday. At Rozhany our fire destroyed an enemy battery, and here the enemy, under cover of a most violent fire, continued attacks on both sides of the road and until nightfall.

"On the Baranovitch road also the enemy made another attack supported by heavy artillery. Here we captured four hundred Austrians and Germans, four machine guns and ammunition wagons. The actions near Rozhany were of a slighter character.

"In the direction of Pinsk there has been no change. The enemy is endeavoring to advance from the Hollo region eastward on both banks of the Styr. In the Hlowa region the enemy, having been reinforced, is continuing his offensive in the Derazno district. We are holding his attacks.

"In the direction of Kremenetz attacks continue to be made on the banks of the upper Goryn without any success by the Austrians, who have been constantly repulsed with great losses. Of two hundred Austrians captured, forty surrendered voluntarily.

"In the region of Tarnopol the engagements have been favorable to the Russians. North of Tarnopol we captured Saturday 31 officers and 4253 men, including Germans, nine machine guns and much booty in repulsing enemy attacks in which the Austrians suffered heavy losses, despite the fact that they had received considerable reinforcements. Here the enemy emitted a smoke cloud to the extent of two verstas (a mile and a third) along the front.

"In the fighting north of Tarnopol our troops derived great advantage from the employment of armored automobiles, which advanced before our defenses, where they remained for hours firing on the enemy.

"From Sunday morning our troops south of Tarnopol took the offensive. On the Sereth river the Austrians continue their retreat from the region of Plasz towards the Dulester. Our pursuit continues successfully, for we have captured many prisoners.

## Strengthen Lanzo Lines

Rome, Sept. 13.—The following official statement from general headquarters was issued today:

"In Taro, in the Prentino region and Cernaia the artillery action continues, though hampered by the fog. The enemy's fire has been directed especially against the townships behind our lines.

"In the Pizzo Pash on the night of Sept. 10 enemy troops under cover of darkness attempted a sudden attack on the Slatenka Valley. Our troops allowed them to approach to within a short distance and then fell upon them with the bayonet, putting them to flight after a violent struggle.

"In the Tichina district, after our attack of the 8th on Santa Maria, strong enemy detachments were reported moving in the direction of that place by way of the Valley of Tominsk.

"In the lower Lanzo zone an aerial reconnaissance established the fact that the enemy is building a new system of defenses of an almost permanent character. According to reliable information the enemy has been reinforced by fresh contingents of troops and heavy artillery.

"Two of the most effectively bombarded the enemy's encampment near Oppachasella. The enemy threw a number of shells into the Montaleone docks, damaging several steamers."

## FRENCH WAR BREAD NOW

Paris, Sept. 13.—The French with who shot so many clever shafts against German war bread are in a quandary. The French Chamber has now voted by 417 to 13 that France eat her own war bread, which is to be called "national bread" or the "war loaf" and to contain what flour, Indian corn, barley or manioc.

## THAT KNIFE-LIKE PAIN

Is Only One of Nature's Warnings of Weak or Disordered Kidneys.

Have you a lame back, aching day and night? Do you feel sharp pains after stooping? Are the kidneys sore? Is their action irregular? Use Doan's Kidney Pills—the medicine recommended by so many Portsmouth people. Read this case:

Clinton R. Thud, 136 Hill St., Portsmouth, says: "For six months I was annoyed off and on by my kidneys. I had such sharp pains in my back that I couldn't do anything. I also felt tired and sore and suffered from rheumatic pains. One box of Doan's Kidney Pills, which I got at Phillips's Drug Store, relieved the aches in my back and corrected the other difficulties."

## A PERMANENT CURE

More than five years later, Mr. Thud said: "Continued use of Doan's Kidney Pills cured me and the cure has been permanent."

Price 50c at all dealers. Don't simply ask for a kidney remedy; get Doan's Kidney Pills, the same that Mr. Thud has twice publicly recommended. Foster-McMillan Co., Props., Buffalo, N. Y.

# THEATRICAL TOPICS

A Scene From "HIGH JINKS."

## AT THE COLONIAL

"High Jinks," which Arthur Hammerstein will present at the Colonial Theatre Thursday evening, Sept. 16, is all about a party, which once in a while makes those who have suffered from it not only good natured but remarkably hilarious. The secret of the performance is communicated by the discovery to an American nerve specialist in Paris. The doctor decides to try it in his practice, and experiments on a young female patient. She becomes so joyous under its influence that she throws her arms around the doctor's neck and kisses him to her heart's content. Her husband, a quarrelsome Frenchman is witness of the incident, and at once seeks satisfaction from the doctor. How the physician sought to avert the Frenchman, and a tangled maze of trifling from the substance matter of the remainder of the plot, whose fun mounts higher and higher as it proceeds. The book and lyrics were written by Otto Hauerbach; Rudolph Friml, composer of "The Firefly," has furnished a score which is said to be richer in lively and humorous dance melodies than any of recent production. Besides a large chorus of pretty girls, the company includes a score of well known entertainers.

# AT THE PRINCIPAL BOSTON THEATRES

## "NOBODY HOME"

Fifth Week Begins Next Monday at Ye Wilbur Theatre, Boston

"Nobody Home," the musical comedy success of the year will start its fifth week at the Wilbur Theatre next Monday evening. With Lawrence Grossmith, Adèle Rowland, Charles Judels, Monte Olett and numerous artists leading the cast, this musical comedy has proved the strongest drawing card the Wilbur Theatre has had and the Bostonians have been loath to relinquish its value. In most musical comedies managers are satisfied if they have one good comedian, one good soprano and perhaps one good male voice, but such is not the case in "Nobody Home." It boasts of a cast that less seldom been rivaled by any musical event of its kind. In addition to this, Messrs. Mackay and Comstock succeeded in fitting the character of the exacting cast with players who are remarkably suited to their roles. The chorus is out of the ordinary in that it contains exceptionally pretty girls who not only sing and dance and there are two feature dancers, Quentin Tait and Helen Clark, who exhibit the very newest thing in modern dancing. They are the latest discovery in the dancing world and have won an ovation at every performance as well as being called in the musical or dancing field. Their youth and grace place them at the head of present day dancers.

## "EXPERIENCE"

The Play Which All New England is Talking About, Enters on its Fourth Big Week at the Shubert Theatre, Boston.

Four eminent Bostonians have enthusiastically endorsed "Experience" at the Shubert Theatre, during the past week and it will enter upon its fourth week of sensational success next Monday night with the record of having done a capacity business during the past three weeks. The quartet of distinguished persons who have been thrilled and possessed with "Experience" is headed by Governor Walsh, who said: "I thoroughly enjoyed every moment. I think 'Experience' is a great play, well acted." His Honor, Mayor Curley said: "The play 'Experience' is a wonderful performance and teaches great moral lesson." Mrs. Julia Arthur Cheney, herself a great actress a few years ago, saw the play twice in New York and went to see it at the Shubert. She said: "Once more I have been thrilled and fascinated by this play. It's wonderful play 'Experience' is a fine, finely produced and naturally and beautifully acted. I think it is a play that should be seen by every one."

London, Sept. 13.—Dr. Ernst Leichmann, a bacteriologist of Liechtenfeld, has died as a victim of the war. The young Shubert, she said: "Once more I have been thrilled and fascinated by this play. It's wonderful play 'Experience' is a fine, finely produced and naturally and beautifully acted. I think it is a play that should be seen by every one."

# GOVERNOR INSPECTS SOLDIERS

YESTERDAY WAS GOVERNOR'S DAY AT ANNUAL ENCAMPMENT AT FORT STARK

Gov. Roland H. Spaulding arrived at Fort Stark shortly before noon yesterday, accompanied by Adj. Gen. Charles W. Howard, Judge Advocate E. W. Leach of Concord, Inspector General William Sullivan of Manchester, and the following members of his personal staff: Major J. D. Gardner of Manchester, Major Wallace Hussey of Rochester, Major Sidney Rollins of Newmarket, Maj. Philip Paulkner of Keene, Capt. Merrill Homan of Berlin, Lieutenant Clinton McLean of Milford. The occasion of the visit was the annual Governor's Day at the encampment of the New Hampshire Coast Artillery Corps now doing their tour of duty at Fort Stark.

The Governor was given a salute of thirteen guns as he entered the reservation. The early part of the afternoon was occupied with witnessing the target practice with the 6 and 12 inch guns. At 4:00 o'clock Captain E. J. Wallace, U. S. A., commanding officer of the Portsmouth Artillery district, gave a reception to the governor. Among the other guests were Commander John V. Klemm, acting commandant and the other officers attached to the navy yard, Portsmouth; and the officers of the National Guard.

At 5:00 o'clock the battalion, under command of Major Chauncey B. Hoyt, N. H. C. A. C., held a parade and were reviewed and inspected by the Governor. The citizen soldiers from Portsmouth, Exeter, Dover and Laconia made an excellent showing and did good work with the big guns in the target practice.

In the evening the first Regiment Band of Manchester played a concert. Today ends the tour of duty and the men will return to their homes this afternoon.

## "PEG O' MY HEART"

There are few dramatic offerings that can boast of a two years' continuous run on Broadway, but "Peg O' My Heart," in which Dorothy Mackaye is now appearing for her second year in one of these, "Peg O' My Heart" will be the attraction at the Colonial Theatre on Saturday evening, Sept. 18.

This is a play that has a plausible story in which laughter and tears are deftly mingled and has also for its central character one of the sweetest heroines. "Peg" is an unspoiled, irresponsible bit of a girl whom chance throws in the way of a haughty, unnatural family. They are so unlike her that she is made very unhappy, but in the last act through the man that has won her love, her smiles return.

Another touch of the real old summer days.  
Fish and game warden appear to be pretty close to Portsmouth.  
Campbell Varnish Stains at the Matthews' Store, Pleasant street.  
The school boy is trying to make the best of it but it comes hard.  
Upholstering, hair mattresses renovated, Margeson Brothers. Phone 570.  
Next Thursday, Sept. 16, is the day set for the cutting in of the straw hats.  
A fall of rain or snow will be welcomed by the residents of Daniel street.  
Lobsters and fish of all kinds caught by our own boats, fresh every day. B. Jameson and Sons. Tel. 215.  
Commissioner George B. Wallace has been very busy since his appointment to the police commission, receiving the glad hand.  
W. H. Horn, the locksmith, saw his old cutlery grinder has moved to the new store on Penhallow street, next to the dye house.  
The tour of duty for the New Hampshire Coast Artillery Corps ends today and has been one of the most successful and well attended of any yet held.  
Perkins for the inventory, Sanit-Flush for the toilet, at the Matthews' Hardware store.  
Mrs. Emma Frederickson will entertain the ladies of Star Lodge of Odd Ladies at her home on Thursday. Automobile will leave the North church at 10 o'clock.  
LOST—Sunday morning, Sept. 12, a pearl crescent bar pin, either on Fleet, State, Chapel streets, or at St. John's church; reward if returned to Miss Adelaide Thurston, 12 Fleet St., or 47 Market St., Portsmouth. he sep 13, 11.  
The work done on Market Square the past summer by Traffic Officer Shannon has prevented many collisions and kept High street at all times passable. The traffic officer's job is no easy task as one can easily see by observing their work for only a short time.

### DOCTOR GORDON FOR THE SENATE

Dr. J. W. Gordon of Ogunquit is to enter the primaries at a candidate for state senator from York county. His candidacy has already been informally announced. Dr. Gordon is a widely known man in York county, having practiced medicine at Ogunquit in the surrounding towns for many years. He has been a member of the lower house of the legislature.

## IF

If the murder of Leo Frank had taken place in a State where women vote, it would have been called a proof that equal suffrage weakens government and leads to a breakdown of civilization; and if it had been a band of twenty-five women who dragged Frank out of prison and hanged him, it would have been quoted from one end of the country to the other as proof that women are too emotional and too lawless to be trusted with the ballot.

## ARRESTED AT NEWBURYPORT

Sheriff Spinney Brings Back Morrison for Forgery.

Sheriff Spinney went to Newburyport today and returned having in custody Arthur M. Morrison, wanted in this city on an indictment found against him by the grand jury in October, 1911. Morrison in company with a man by the name of Williams worked several bad checks in this city on doctors, grocers, farmers and others. The checks were given in payment of bills, one of which was \$50, owed a local physician. In every case Williams filled out the checks and Morrison did the rest. Each check was made out for more than the bill owed called for, and in making payment, Morrison would receive \$10 or more in change, and so kept ahead of the game.

Finding the authorities were after him he made his escape from Portsmouth and was next heard from doing time at Deer Island for forgery in Essex county, Mass. On a bench warrant he was arrested by the Newburyport police and was more than surprised when the sheriff called to bring him to Portsmouth. An attempt will be made by the officers to locate the other man.

Morrison will be tried at the October term of the superior court on the charge of obtaining money under false pretenses.

## I WONDER

Why the London police don't say whether or not they have the real Edgar J. Beach, the international crook wanted by the state and county authorities?

If a subscription can be taken up for the relief of the people on Daniel street from the dust?

How many of the present city government want to go back in 1910?

Why the Boston and Maine railroad is afraid to burn the lights at night in the depot?

Why one company in the fire department refuses to face the camera man?

Why the continued raid on the public with ball tickets?

Why the mayoralty campaign managers are starting in so early?

Why the Improvement Society don't help out the residents of Daniel street?

Why a decent hall room is not provided for women at the police headquarters?

If the soldier boys that have been in camp at the fort for the past week didn't leave the time of their lives?

When the railroad will provide an invalid's chair at the Portsmouth depot?

### OBSEQUES

Thomas McKenna

The funeral of Thomas McKenna was held at the Church of the Immaculate Conception at 8.30 o'clock this Tuesday morning and was attended by a large concourse of friends. High mass of requiem was celebrated by Rev. Frank A. Mulvanity, the senior choir rendering the music. Appropriate solos were rendered by Miss Katherine O'Leary, and Robert Carey of the U. S. navy. Large delegations were present from Division No. 2, A. O. H., and Local No. 309. The funeral cortege was one of the largest seen in this city for years and fully attested to the popularity of the deceased with all classes. Burial was in Calvary cemetery, the pall bearers being Dennis Rafferty, John J. Rafferty, Harry Timmons, Thomas Laughlin, Thomas Walsh, Bartholomew Connors, William

Julia B. Keyes

The remains of Mrs. Julia B. Keyes who died at Little Boars Head on Sunday were sent to Cincinnati, O., for interment. O. W. Ham was the officiating undertaker.

### A BIG TRAIN.

Locomotive Hauls 61 Cars With 2086 Tons of Freight Over Grade.

The largest freight train that has left this city on the Boston and Maine railroad for many days passed through on Sunday, bound west. The train, hauled by one locomotive, was in charge of Conductor Burns and Engineer Fish and was made up of 61 loaded cars with 2086 tons. It can be seen the great improvement that has been made in the motive power of light from the fact that ten years ago it would require a switching engine to assist in getting all freights of 30 cars or more over the grade going out of this city. The train was made up mostly of export freight and the way that the big locomotive whisked the 61 cars up the grade between the yard at Noble's Island and the Plains, shows that some of the rumors relative to poor motive power have no foundation.

### TAKEN SICK IN CAB.

Fireman and Brakeman Bring Train From Newburyport.

Shortly after leaving Newburyport this morning, Engineer Theodore Walden of the first passenger train from Boston, arriving here at 8.05 was taken ill with indigestion and was obliged to turn his engine over to Fireman Hoberg, who ran the train to Portsmouth. Brakeman J. J. Claffey went to the cab and acted as fireman. The emergency crew took the train through to its destination at Jewett and arrived on schedule time. Engineer Walden was able to make the return trip to Boston.

## Portsmouth Theatre

The People's Popular Play House

Vaudeville for Tuesday, Sept. 14

BEN LEWING & CO., presenting a dramatic novelty playlet, "The Devil's Mate." A positive sensation. Special scenery, beautiful electrical effects; direct from Gordon's Olympia, Boston.

THE RAMSAY SISTERS—Two petite misses, very clever singers and instrumentalists.

"THE GODDESS"—2d Episode, 2 reels.

"THE WANDERER"—Biograph Drama. A Griffith reissue.

"LOST IN THE SWIM"—MinA Comedy.

"ROAD O' STRIFE"—12th Episode, called "The Sacrifice."

## CAPT. VON PAPEN WILL REMAIN IN U. S.

American Government Has Not Yet Asked for His Recall.

(Special to The Herald)

Washington, Sept. 14.—The United States has not yet indicated to Ambassador von Bernstorff that it wants Captain von Papen, military attache of the German embassy sent home. This was learned on high authority here today. Until the U. S. notifies the ambassador of such action the captain will remain in this country.

## REINFORCEMENTS BEING LANDED AT GALLIPOLI

(Special to The Herald)

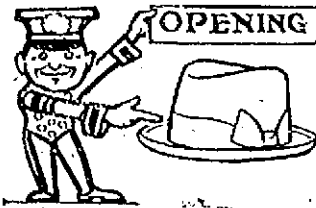

Athens, Sept. 14.—Heavy reinforcements for the British and French troops are being landed on the Gallipoli peninsula. Terrible bombardment has been directed by the allied warships against the Turkish batteries.

### SOME JOY RIDE.

Three Drunks Have Gay Time in Hayrack.

Three natives of York came over to this city on Monday with a load of hay, and after disposing of the cured fodder, they took on a load of booze and went joy-riding in the hayrack. They finally started for home. Someone reported by telephone that the driver was doing the Tod Sloan act on Market street and that the trio with the rig were engaged in more or less circus stunts at the North End. Officer Anderson was ordered to take charge of the outfit and as he appeared in sight, two of the three quit the hay wagon, but the third was unable to retreat and he got pinched along with the rig. It was necessary to secure the services of a new driver enroute to the den and a big, husky Poleander held the reins over "Old Dynamo", while the cop read the compass and held on to the surviving member of the distinguished visitors. "Dynamo" landed a banquet in one of the local liveryies, and his owner took a nap in the refrigerator.

The summer tourist is now seen wending his way homeward to buckle down to the fall and winter grind.

Sept. 15 marks the end of the "open season" for straw hats. Now comes the "opening" of soft hats and derivatives. While we have shown some advance styles in these hats for several days, our full shipment has just arrived. We are now ready with a complete display of every block in both soft and stiff hats that is the "right thing" for Fall. The only showing in town of Lamson & Hubbard's headwear.
